

SAFETY DATA SHEET “POLISH KG”**SECTION 1. Identification of the substance/mixture and of the company/undertaking****1.1. Product identifier**

Product name POLISH KG – Polishing Powder

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use Blend for polishing granite, for professional use

1.3. Details of the supplier of the safety data sheet

Name KLINDEX SRL
Full address s.s.5 Tiburtina Valeria km 209+200
District and Country 65024 Manoppello (PE) ITALIA
Tel: (+39) 085 859 8546 Fax: (+39) 085 8599 224
Web: www.klindex.it
Mail: info@klindex.it

1.4. Emergency telephone numberFor urgent inquiries refer to SERVIZIO ANTIVELENI – IST. GASLINI – GENOVA
Tel. 010 5636245**SECTION 2. Hazards identification.****2.1. Classification of the substance or mixture.**

Mixture:
the mixture does not meet the criteria for classification in accordance with Regulation (EC) 1272/2008 (EU-GHS-CLP) and subsequent amendments. Further information on the risks to health and / or the environment are given in sections. 11 and 12 of this sheet.

2.2. Label elements.

Hazard pictograms: --
Warnings: --
Indications of danger: --
Safety: --

The product does not require hazard labeling under the Regulation (EC) 1272/2008 (CLP) and subsequent amendments.

2.3. Other hazards.

Information not available.

SECTION 3. Composition/information on ingredients.**3.1. Substances.**

Information not relevant.

3.2. Mixtures.

It Contains:

Identification.	Conc%	Classification 1272/2008 (CLP)
TIN OXIDE CAS: 18282-10-5 EC: 242-159-0 INDEX. - Nr. Reg. -	5 – 6	Substance with a community exposure limit in the workplace
TIN CAS. 7440-31-5 EC: 231-141-8 INDEX. - Nr. Reg. -	1 - 1,5	Substance with a community exposure limit in the workplace

SECTION 4. First aid measures.

4.1. Description of first aid measures.

Not specifically required. It is recommended in any case, according to good industrial practices.

4.2. Most important symptoms and effects, both acute and delayed.

No episodes of damage to health ascribable to the product.

4.3. Indication of any immediate medical attention and special treatment needed.

Information not available.

SECTION 5. Firefighting measures.

5.1. Extinguishing media.

The product is not highly flammable.

SUITABLE EXTINGUISHING MEDIA

The extinguishing equipment are the traditional ones: carbon dioxide, foam, powder and nebulised water.

EXTINGUISHING MEDIA NOT SUITABLE

No one in particular.

5.2. Special hazards arising from the substance or mixture.

HAZARDS CAUSED BY EXPOSURE IN CASE OF FIRE

Avoid breathing products of combustion (carbon oxides, toxic pyrolysis products, etc.).

5.3. Advice for firefighters.

GENERAL INFORMATIONS

Cool down with water jets the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water which must not be discharged into drains. Dispose of contaminated water used for extinction and the remains according to current regulations.

EQUIPMENT

normal clothing for fire fighting, such as a compressed air breathing apparatus open circuit (EN 137), complete flame retardant (EN469), flame-resistant gloves (EN 659) and boots for the Fire Brigade (HO A29 or A30).

SECTION 6. Accidental release measures.

6.1. Personal precautions, protective equipment and emergency procedures.

Avoid the formation of dust spraying the product with water if there are no contraindications. Avoid breathing vapors / mist / gas.

Wear suitable protective equipment (including personal protective equipment referred to in section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications are valid both for the employees to work for the emergency interventions.

6.2. Environmental precautions.

Contain waste with earth or sand. If you contaminate a water course, a sewer or has contaminated soil or vegetation, consult the competent authority network.

6.3. Methods and material for containment and cleaning up.

Collect mechanically spark leaked product and add it to containers for recovery or disposal. Discard the residue with water spray if there are no contraindications.

Ensure adequate ventilation of the place affected by the loss. Check for any incompatibilities for the material of the containers in section 7. The disposal of contaminated material must be carried out in accordance with the provisions of paragraph 13.

6.4. Reference to other sections.

Any information on personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage.

7.1. Precautions for safe handling.

Handle the product after consultation with all other sections of this SDS. Avoid dispersal into the environment. Do not eat, drink or smoke while handling it. Remove contaminated clothing and protective equipment before entering areas in which you eat.

7.2. Conditions for safe storage, including any incompatibilities.

Store only in the unopened original container and labeled. Store in a well-ventilated place, away from direct sunlight. Store containers away from any incompatible materials, checking section 10.

7.3. Specific end use(s).

Information not available.

SECTION 8. Exposure controls/personal protection.

8.1. Control parameters.

TIN: (Inorganic compounds such as Sn)

OEL – EU (ACGIH) = 2 mg/m³ TWA/8h

8.2. Exposure controls.

Given that the use of appropriate technical measures should always take priority over personal protection equipment, ensure good ventilation in the workplace through effective local aspiration. The personal protective equipment must bear the CE marking attesting to their compliance with applicable regulations. The usual precautionary measures for handling chemicals.

HAND PROTECTION

Unnecessary

SKIN PROTECTION

Unnecessary

EYE PROTECTION

Unnecessary

RESPIRATORY PROTECTION

In case of exceeding the threshold value of one or more of the substances present in the preparation reported to the daily exposure to work environment or to a fraction established by the service of prevention and corporate security, wear a face filter type FFP3 (ref. standard EN 141).

ENVIRONMENTAL EXPOSURE CONTROLS.

The emissions from production processes, including those from ventilation should be checked for compliance with the environmental protection legislation.

SECTION 9. Physical and chemical properties.

Physical state 20 ° C:	Powdered
Color:	Grey-Black
Smell:	Odorless
ph:	7,0 (saturated in water dispersion)
Fusion point:	N.A.
Freezing point:	N.A.
Boiling point:	N.A.
Flash point:	Not inflammable
Evaporation rate:	N.A.
Flammability (solid, gas):	N.A.
Lower limit flammability / explosion:	N.A.
Upper flammability / explosion:	N.A.
Vapor pressure:	N.A.
Vapor density:	N.A.
Relative density:	N.A.
Apparent density:	0,77 gr/cm ³
Solubility:	partially soluble
Partition coefficient: n-octanol / water:	N.A.
Auto-ignition temperature:	N.A.
Decomposition Temperature:	N.A.
Viscosity:	N.A.
Explosive properties:	N.A.
Oxidizing properties:	N.A.

SECTION 10. Stability and reactivity.**10.1. Reactivity.**

There are no particular risks of reaction with other substances in normal conditions of use.

10.2. Chemical stability.

The product is stable under normal conditions of use and storage.
In contact with acid can generate hydrogen.

10.3. Possibility of hazardous reactions.

Under normal conditions of use and storage are unpredictable dangerous reactions. It may react with acids and / or oxidizing.

10.4. Conditions to avoid.

None in particular. However the usual precautions against chemicals.

10.5. Incompatible materials.

Information not available.

10.6. Hazardous decomposition products.

When heated or in case of fire can be released vapors potentially dangerous to health.

SECTION 11. Toxicological information.

No episodes of damage to health due to exposure to the product. In any case it must be handled in accordance with good industrial practices. This product may have sensitive people, cause minor health effects by inhalation and / or cutaneous absorption and / or contact with eyes and / or ingestion.

11.1 Information on toxicological effects.**TIN OXIDE**

Oral toxicity: LD50 = 20000 mg / Kg bw

- CLP: EC Regulation 1272/2008
- DNEL: Derived no effect level
- EmS: Emergency Schedule
- GHS: Globally Harmonized System of Classification and Labeling of Chemicals
- IATA DGR: Regulation for the transport of dangerous goods by the International Air Transport Association
- IC50: Concentration of immobilization of 50% of the population subject to testing
- IMDG: International Maritime Code for Dangerous Goods
- IMO: International Maritime Organization
- INDEX NUMBER: identification number in Annex VI of the CLP
- LC50: Lethal Concentration 50%
- LD50: Lethal Dose 50% - OEL: Occupational Exposure Level
- LOAEL (Lowest Observed Adverse Effect Level)
- NOAEL (No Observed Adverse Effect Level)
- PBT: Persistent, bioaccumulative and toxic according to REACH
- PEC: Predicted Environmental Concentration
- PEL: Predicted Exposure Level
- PNEC: Predicted No Effect Concentration
- REACH: EU Regulation 1907/2006
- RID: Regulations for the international carriage of dangerous goods by rail
- TLV: TLV
- TLV CEILING: Concentration which must not be exceeded during any time of exposure working.
- TWA STEL: Short Term Exposure Limit
- TWA: Medium term exposure limit weighed
- VOC: Volatile Organic Compound
- vPvB: Very persistent and very bioaccumulative according to REACH
- Water hazard class: Water hazard class
